AGENDA

Collaborate & Discuss

For each Team:

- Present your progress
- Share what you've learned
- Identify what you still need to learn
- Debate and compare different ideas

AGVs and LiDAR: How to Read the Data

Data Management Plan (DMP)

- What is a Data Management Plan (DMP)?

PREPARE FOR THE NEXT MEETING

21.11.2025 (Friday), 10:00–13:00 – Zoom

Data Management Plan

For each team, discuss:

- Specification of the required data
- Verification of data availability and feasibility of collection
- Limitations of the datasets and how these might impact the solution design

Adjustment of proposed ideas to available data

For each team:

- Incorporate new data and knowledge to propose improved solutions to the original problem
- Develop conceptual designs, models, or system outlines based on their findings

THANK YOU FOR YOUR ACTIVE PARTICIPATION
